

Techs on Decks

**PARTICIPATION
OPPORTUNITIES**

Saturday, November 15, 2025

Alameda, CA

Help Students Shoot for the Moon and Beyond in 2025!

Last year, the inaugural *Techs on Deck* hosted Bay Area students and their families for an exciting day of STEM career exploration and hands-on learning inspired by the Apollo Missions. This year, we will offer even more middle and high school students the opportunity to:

- Connect with tech, scientific and corporate innovators
- Reach out and touch a real space capsule or fighter jet, see how ships navigate, experience a lunar explorer, build a moon base and more
- Learn about internships, scholarships and early career paths in space exploration, AI, cybersecurity, first response, healthcare, engineering, defense, operational technology and more

Join us as a sponsor, supporter, or participant today and spark the next STEM generation of tomorrow!

Summary of Opportunities

- Title Sponsorship
- Event Sponsor
- Supporter
- Participant
- Additional Ways to Support USS Hornet Museum STEM Education Programs

Title Sponsor \$10,000

\$10,000 Funds Free Admission for 1,000 Students!

Other Ways to Support the Hornet Museum's STEM Education Programs

The Linda Uhrenholt Memorial Program Scholarship Fund

As part of our mission to serve the community, The Education Department offers scholarship funds to schools who would otherwise not be able to visit the Museum for a field trip. Linda Uhrenholt was an instructor and curriculum developer for our STEM programs after a long career in educational technology in several Bay Area schools. She loved to work with the kids and see the joy in their learning. Linda sadly passed away in 2024, and the Museum has named this scholarship fund in her memory so that kids who might not otherwise have the opportunity can have a fun and inspiring experience learning STEM on board a World War II aircraft carrier.

To donate to this fund, please contact Charlotte Rodeen-Dickert, Institutional Advancement Director, at charlotte.rodeen-dickert@uss-hornet.org or (510) 521-8448 x282.

Volunteer Opportunities in EDU

The Education Department also offers volunteer opportunities for teaching STEM in our programs, such as our Night Ops overnight program. For more information, contact Heidi Schave, Education Director, at heidi.schave@uss-hornet.org or (510) 521-8448 x224.

For more information, please contact:
